

EU H2020 Marie Skłodowska-Curie ITN:
'JOLT: Harnessing Digital and Data Technologies for Journalism'

Globalised Online News

**Center for Internet Studies and Digital Life,
University of Navarra, Spain**

Job Title: Marie Skłodowska-Curie ITN Early Stage Researcher

Full Time and Fixed Term: 36 Months

Research Fellow: €36,424 gross p.a. (before national taxation and deductions)

Start Date: October 2018

The Center for Internet Studies and Digital Life at the School of Communication, University of Navarra (UNAV) is offering a PhD position to develop research on globalised online news. The researcher will investigate the globalization of news provision beyond traditional geographic boundaries. Applicants are expected to explore the business possibilities, as well as the organisational requirements and consequences, of targeting digital media towards a global audience. Applications are welcome from media economics, journalism studies, and related disciplines.

The successful candidate will undertake full-time PHD research. In addition to fulfilling the requirements of UNAV's doctoral training programme, the successful candidate will receive a personalised training plan to develop skills for future employment in academia or industry. This will include participation in JOLT training events (to develop domain specific skills, general research skills, and transferable skills) and secondments/work-placements in different research environments. All costs are fully funded (100% employment) by the Marie Skłodowska-Curie Actions programme, which also offers highly attractive salary and allowance conditions.

Requirements (in addition to those outlined above):

- English language proficiency (IELTS 6.5)

For more information, please contact Prof. Ramón Salaverría rsalaver@unav.es

The University of Navarra is committed to an inclusive culture and respecting diversity, and welcomes applications from all sections of the community.

EU H2020 Marie Skłodowska-Curie ITN:
'JOLT: Harnessing Digital and Data Technologies for Journalism'

Requirements and Application Details

Eligibility Requirements: All applicants should ensure and demonstrate compliance with the Marie Skłodowska-Curie rules: **(1)** Applicants may be of any nationality, but must not have resided in or carried out their main activity (work or study) in the host country for more than 12 of the 36 months prior to recruitment. This condition excludes short stays such as holidays. **(2)** Applicants must have less than four years research experience (full-time equivalent) and must not have obtained a PhD. Registration on taught programmes such as undergraduate degrees or taught Masters degrees do not count as research experience. **(3)** Applicants must be willing to travel for two secondments or work-placements (where each is approximately 4 weeks in duration).

Salary and Benefits: The Marie Skłodowska-Curie programme offers highly competitive and attractive salary and working conditions. These include a living allowance/salary (see individual advertisements for details), a mobility allowance (€7,200 gross per annum), and a family allowance if applicable (€6,000 gross per annum). Expenses such as registration fees and training are covered by the JOLT network. Researchers will be funded for three years.

Responsibilities of the PhD Researcher

- To manage and carry out the research project within 36 months.
- To write a PhD dissertation.
- To participate in research and training activities within the JOLT network.
- To publish articles and deliver presentations to the research community
- To participate in public outreach and engagement.
- To participate in JOLT meetings and the organisation of JOLT events.
- To liaise with relevant research staff and students
- To write progress reports and prepare results for publication.
- To attend progress and management meetings as required.

How to Apply: Please complete the [online application form](#) and submit the following documents compiled in the following order into a single PDF file: **Research Proposal** outlining your understanding of the topic, proposed theoretical approach, methodology, field for empirical research, and potential significance/contribution to existing state of the art (max. 2000 words); **Curriculum Vitae** (including two referees' contact details); **Certificates/Transcripts** of Degree and/or Master degree.

Closing Date for Applications: 27 May 2018. Selected candidates will be invited for interview within one month. Interviews may be conducted in person or electronically.
